A Specimen Grit Official.

Philip Wagner, a Convict Rewarded by a Fat Office—Worked Well in Elections.—Friend of Hon. Mr. Oliver, M.A. Intense—Defied Parliament and Got More Salary Still—Refused to be Dismissed, and the Liberals Dare not Carry out Order to Remove Him.

A sample of the class of men appointed by the Laurier Government to fill public offices may be found in case of Philip Wagner, of Edmonton, Alberta. Mr. Wagner knows enough of the languages of Central Europe to act as interpreter for the Gaiians and others. He is also considerable of an election crook. He has helped to bring in the Laurier government in 1896, and was drawing money from the Dominion treasury in 1898, as interpreter and also on contracts secured for him by Mr. Oliver, who was then a plain M.P.

In October 1899 Mr. Wagner was charged with misappropriating money entrusted to him by a Galician named Warena to pay freight charges to the C.P.R. He could not be induced to give up the money, and a complaint was sent to Ottawa, where the money was refunded, but could never be secured back from Wagner, although he has since been almost always in the pay of the government.

Two other charges of embezzlement were laid against Wagner by men Laouste and Chlutsawek and he was tried, but not convicted, although the amount in all was nearly \$900. In the very face of this Mr. Oliver, still plain M.P., urged that Wagner's salary as interpreter be raised.

Immediately after this raise Wagner was again arrested on two more charges of fraud laid by a Galician named Anoretz, and sentenced to two months at hard labor on one charge and three on the other.

The Department of the Interior had previously suspended Wagner, but on Mr. Oliver's influence as a member for the constituency, paid his salary until the time of his conviction. But to make sure of his dismissal this time a special letter was written to J. Obed Smith, the commissioner. Even after this Wagner claimed he had not been notified, and he was still further paid his salary. He got out of prison about the end of 1901, and renewed his activities as a political heeler for the Liberals.

In April 1905, Mr. Oliver became Minister of the Interior, and one of his first acts was to reappoint Philip Wagner as interpreter, in spite of all the Gaiians and their missionaries, and at an increased salary from \$25 to \$75 per month. He also appointed Wagner assistant immigration agent at Edmonton at \$25 a month, making this convict's salary \$1200 at the same job where he had perpetrated his frauds.

Mr. Lake, M. P. protested in parliament. He moved that men like Wagner who were office holders should not be permitted to act as election crooks at the same time.

Sir Wilfrid Laurier put on a sanctimonious face and accepted the motion, declaring the resolution did not go far enough. He thought Provincial officials should also be restrained from meddling in elections.

Of course, Wagner paid no attention to this. He was provided with plenty of money and carried on the election work as usual. In November of the same year there was a local election to select members for the new Provincial legislature, and Wagner was more active than ever. Affidavits were read in parliament showing this. Jacob Baronotki, a boarding house keeper, swore that Wagner hired him to work for the Liberal candidate in Edmonton and paid him for his time. He also received payment for two barrels of beer which he bought to prime the Gaiians for voting day.

Two other Galicians named Ferby and Chadulak also sent affidavits to Ottawa showing that Wagner had paid them for working for the Grit candidates, also for barrels of beer. In no case was less than two barrels bought at once.

The affidavits were forwarded to Hon. Mr. Oliver, Minister of the Interior, but he took no action. Then Mr. Foster, M. P. brought the matter up in the House of Commons. He enquired in a formal way if the government was aware that Philip Wagner, an ex-convict, was being still employed in the same capacity where he had perpetrated his crimes. What was Mr. Oliver's answer? It was that there was no conviction registered in his department. Of course there never was any conviction of any kind registered in the Dept. of the Interior, but the convictions were registered in the Dept. of Justice. Mr. Oliver's answer was a mean subterfuge. It was a deliberate attempt to deceive the House of Commons.

This equivocation on the part of Mr. Oliver quieted the scandal

for about a month, but word came to Ottawa from the west to look further into the matter, so Mr. Fowler M. P. took it up. Messrs. Lake and Foster M. P. had failed to nail the thing down to the Dominion Treasury being robbed to support their ex-convict Wagner in a fat office as a reward for election crookedness, so Mr. Fowler M. P. moved in the House of Commons as follows:

"That in the opinion of this House the said Philip Wagner should be forthwith dismissed."

What stand did the Liberal Government and their supporters take on this motion? Every fact detailed above was brought out in the discussion, but Sir Wilfrid Laurier and every member of his cabinet in the House, and every supporter of his government in sight stood up and recorded their votes to retain Philip Wagner in the public service and still pay him from the people's money to fill an office which he had disgraced and to continue his frauds on the Gaiians and his crimes against the election law, although his case had called for a motion in parliament forbidding officials to meddle in elections.

Some people forgive governments when crookedness is done in their behalf by supporters. It is allowed that at election time men will go beyond the limits on their own hook. In Wagner's case Hon. Mr. Oliver appears to have known all his misdoings for at least 13 years past, and to have been his backer all the while. No matter what Wagner did Oliver stood over him and got his pay increased. When he was dismissed Oliver kept his pay going, and when Oliver got in he tripped his salary. When caught at it Oliver tried to lie and deceived the House. Finally every Liberal in parliament from Sir Wilfrid Laurier down placed themselves on record as endorsing Wagner and all his misdoings.

Winnipeg Board of Trade.

RE EARLY MARKETING OF GRAIN 1907.

Following is a copy of a resolution passed at a general meeting of this Board held October 25th, 1907:

1. "While it is contrary to the usage of the Winnipeg Board of Trade to offer advice as to the disposition of the crop, yet in view of the fact, now evident, that a large quantity of this year's grain crop is of low grade, for which at the present time good prices can be obtained, this Board considers it in the interests of the farmers and therefore of the country generally that these facts be given all possible publicity, and farmers urged to market early, especially their grains of low grade, thus taking advantage of the good prices now prevailing."

2. "This Board also points out as an additional reason for early marketing: The present extreme stringency in the money market, which makes it highly necessary that all liabilities should be liquidated as speedily as possible, and such speedy liquidation can only be accomplished by the prompt disposal of the grain crop."

3. "It is also desirable, in view of the above conditions, that farmers and the railway companies combine to move, if possible, the whole of the low grade grain before the close of navigation, and this Board will gladly assist in every possible way to bring so desirable a result."

4. "As a means of accomplishing this, the railway companies, at the solicitation of this Board, have issued the following order regarding minimum weights."

"In order to encourage the early movement of low grade and light weight grain, the following regulation will apply until December 1st, 1907."

When cars loaded with grain to their full visible capacity show an out turn less than tariff minimums, actual weight only will be charged for subject to a minimum of 40,000 lbs. for Oats, and 50,000 lbs. for wheat, barley, Flaxseed, rye and speltz.

5. "This resolution to be communicated to all the Western Boards of Trade, and their cooperation requested in making these facts and recommendations widely known."

SCHOOLGIRLS' TOGS.

Suggestions For Mothers Who Have Daughters Entering College.

The following suggestions are given for the benefit of mothers who have daughters about to enter college and who must be clothed economically.

Beginning the school wardrobe with the selection of underwear, the suits purchased should be about the same as those worn at home, except that the supply may be more generous, as this

WASIT OF ALL OVER EMBROIDERED WHITE LINEN, WITH INSETS OF EMBROIDERED LACE.

will make the mending less and the garments last longer. If this lingerie is made at home, English longcloth is the best for this purpose, the trimming to be of neat Hamburg embroidery or cluny lace. This muslin is soft, yet durable, and both trimmings will be found to wear exceedingly well. Stockings and shoes will in no way differ from those worn at home, and, in regard to petticoats, bloomers of silk or albatross may take the place of the short underskirt, while the others provided should be a couple of lingerie ones for evening wear and two, striped, of wash material and a silk petticoat for best.

Coming to dresses, a tailored suit will be used for street and church wear, and for this color and style must be chosen with regard to the individuality of the wearer. The model, however, must be smart, and the very latest style is usually considered becoming. The hat should be stylish—but this does not mean necessarily expensive—and the best plan is to get one that will be in good taste if pressed into service with other gowns. Wings and good ribbons will hold their own better than plumes as trimming.

For school use a shirt waist frock of thin, lightweight woolen material will be smart simply made with plaited skirt and tailored waist, relieved by a neat stock and a smart belt. Let the second costume for school be a skirt of a treed or a good sellesene and a jumper suit to be worn with plain guimpes for every day, changing to something daintier when the frock is doing service for afternoon. Some sort of simple evening frock is necessary. When it comes to blouses it seems as though one could never have too

TAILORED WAIST OF HEAVY WHITE LINEN, WITH STITCHED BAND IN FRONT.

many. The waist for special dress occasions could be of ivory point d'esprit, and then if you make a skeleton bodice from the cuttings of your best dress the skirt could be worn sometimes with this second arrangement for informal affairs in or out of college. Lace suspender slippers, hemmed with the cloth are both pretty and effective. Plain madras blouses are the smartest for morning wear, and a waist of pongee or French flannel will be found most convenient. The former made in natural color, Marie Antoinette style, with frills of brown, will be sure to look well with almost any skirt, and so will the French flannel if chosen in neutral tones and plainly tailored. The "gym" suit should not be forgotten, and for this every high school girl knows exactly what she needs, so that it is unnecessary to go into detail.

Women More Honest Than Men. Statistics compiled by American guarantee companies show that, as regards honesty, women are superior to men. Women in America are employed in business as extensively as men, yet the record shows that almost every embezzler and defaulter was a man.

There are more women cashiers than men. The universal stores and shops of almost every kind employ women to handle their receipts and to give change. Yet, says a London paper, there were a hundred cases of men cashiers stealing to one case where a woman cashier took her employer's money.

WEDNESDAY, NOV. 13th, 1907.

OUR SHY MEMBER.

The people are laughing at John T. Moore's latest despatch from Toronto which appeared in his organs, the Bulletin and Advocate. We print it in another column. It sounds very familiar. While the little love feast took place Nov. 1st, the Advocate's despatch is dated the 4th and the Bulletin's the 7th of Nov. But such little discrepancies may be overlooked. It is quite evident Mr. Moore will be here in a very short time, and he is after the seat for the Commons. His Toronto friends think he should get it. But really it would be just as well to await the result of the nomination. The people of the west do not, as a rule, consult Liberal friends in Toronto as to who they will bring out. If Mr. Moore's Toronto friends want him in the House of Commons let them elect him for a Toronto constituency, he lives there more than he does here. He says his friends have been very kind to him, which is quite true, so has his enemies, if he has any. No man has more glaringly neglected his constituency in Alberta than our member. He came back from the east last November, two days before the session of the legislature opened, and he left again for the east shortly after the session closed and all the constituency got was some work on roads and bridges which we were bound to get even if a Conservative represented the constituency, according to the statement of the local government during the election in Glenora, as it was then shown that the constituents represented by Conservatives got quite as much for roads and bridges as the others, and that the amounts denoted to this purpose by the local government was equally divided among the constituencies of the province.

We contented the province would have been one thousand dollars in pocket had Red Deer not been represented in the legislature. And we think Red Deer town would have been better off. There is a general feeling that our member has been bucking the town in sewer and other matters instead of helping it along. There is a feeling that he has used his office for his own interests and has not looked after the interests of his constituency as he should have done.

It is said when our representative makes a speech in the legislature, the members make light of it, and John T. Moore's oratory is a standing joke. Our member has such an exalted opinion of his own abilities, that he doesn't see it, and thinks his mission is to represent this constituency at Ottawa.

Geo. F. Root has announced himself as willing to accept the nomination of the Conservative party should it be tendered him on the 5th of December. Mr. Root is one of the best known stockmen and farmers in Alberta and is a shrewd business man and is fully capable of representing this constituency in the House of Commons. No other names have been mentioned so far as we know and the probability is that Mr. Root will be the unanimous choice of the party on that occasion.

G. W. Smith is entitled to the nomination of the Liberal party and we believe he will get it. He has done more for the party than any other man in this district, and has been ever faithful to his colors. John T. Moore would never have been elected to the Alberta Legislature but for Mr. Smith. J. R. Cowell is another man that has been mentioned as a candidate and he may yet prove a dark horse.

The Edmonton Bulletin and the Red Deer Advocate published a despatch Friday, from Toronto. The despatch was as follows: At the national club, Toronto, on Friday last, Mr. J. T. Moore, M. P., the representative for Red Deer in the Alberta Legislature, was the guest at a luncheon of some prominent Liberals. The earnest hope was expressed by those who know the gifts of this western member that in the forthcoming Dominion campaign he would be elected to represent the new Federal constituency of Red Deer. Possessing exceptional ability as a speaker and being an ardent admirer of Sir Wilfrid Laurier he would not doubt prove a valuable accession to the Liberal side in the House of Commons. Mr. Moore said the people of the West had been kind and even generous to him in their appreciation, and that any man should feel glad to assist by every means at his command the sturdy empire builders of Alberta in their great work. Mr. Moore goes to Ottawa in the interests of his district before returning West.

Chicago Packers want our cattle.

The Calgary Herald says: Swift and company the big Chicago packing house, are making a vigorous descent upon Alberta cattle and during the past few days reports where they had purchased cattle in large quantities have been numerous. Three agents are at present in the province purchasing herds, and altogether fully five thousand head have been purchased by this big concern within the past two weeks.

BOUGHT HULL CATTLE. A couple of days ago W. R. Hull sold 1,200 head to Swift's agent and received a good price for them.

In conversation with a local rancher W. R. Lumley, Swift's chief agent the latter stated that his firm had found Canadian cattle compared more favorably than the very best bred in the States. They were he declared better matured and more suitable to the packing house than cattle from the middle west.

Poplar Ridge

Mr. and Mrs. Tait left last week for Chicago after visiting Mr. and Mrs. Ed. Bowen. Mrs. Tait is Mrs. Bowen's sister.

Rev. Goodfield preached in the school house Sunday afternoon at 3 o'clock as usual. It certainly is worth risking the weather to come and hear him.

Mrs. Thomas Brownrigg accompanied by her daughter, left yesterday for a trip to Kingsgate, B. C. to visit her daughter, Mrs. Spencer.

Our able thresherman, Warner passed through last week. He has a blower on this year, and he certainly does fine work.

Grain has turned out pretty good so far. We understand Mr. Christopher Larsen is quite a hunter. He has already shot 10 timber wolves, 3 coyotes and 2 lynx. Let the rest do as much and there won't be so much complaint about losing hens and turkeys.

Red Deer Deanery Meeting.

A meeting of the Red Deer Deanery was held in Lacombe, Nov. 5 and 6th.

There were present the Rev. C. Greaves (Rural Dean of Red Deer), R. A. Robinson, G. Edwards, G. D. Child, W. Head, J. G. Cracknell, J. W. Moore.

The Rev. Robinson read a most valuable paper on the church needs in the west and most of those present took part in this discussion.

At 8 p.m. there was evensong at St. Pancras's church, a very fair congregation being present. The congregation was addressed by the Rev. C. Greaves and Rev. W. Whitfield.

On Nov. 6 there was a celebration of the holy communion at the parish church at 8, and at 9.30 the deanery assembled at the rectory for further business. The Rev. R. A. Robinson was chosen secretary for the year. Didsbury was chosen as the

probable town for the next meeting in February.

The proposal for united action with other religious bodies on the temperance question was favorably considered.

Exchange of pulpits and the question of Sunday schools in new centres was shortly discussed and the meeting closed at 12 o'clock.

FOR RENT—An eight roomed cottage near business section of town. Good stable in connection. Apply quick to Box 584, Red Deer.

Okanagan Valley B.C.

Forty acres in this famous district for sale, or will exchange for property near Red Deer. This is a real snap. Good for short time only. Apply P. O. Box 507 Red Deer.

Engine For Sale.

Eight horse power gasoline engine on skids or tracks, will operate ten inch plate grinder. Would sell for cash or take cattle in exchange. No reasonable offer refused. Machine in good condition. JAMES BOWER, Red Deer, Sept. 17th, 1907.

Bulletin Staff Correspondence.

Red Deer, Nov. 1.—Red Deer is the largest town in the province of Alberta and the most important point in the long stretch of territory from Edmonton to Calgary. It lies exactly midway between the northern and southern metropolises. The town is most beautifully situated on the south bank of the Red Deer river in a broad flat bench of the river, bounded by the tree clad escarpment of the low plateau that forms the surrounding country. The town site really occupies an area in the shape of a vast segment of a circle the chord of which is formed by the Red Deer river and the arc of which is the surrounding plateau, the edge and slope of which is picturesquely wooded with tall, conical spruces in thick and extended groves, grey-barked poplars and cottonwoods which at this season of the year, in subdued tints of saffron and old gold are a unique and beautiful color contrast to the dark green of the spruces. At the foot of the slope rises the Waskaseau creek until it joins the Red Deer river a short distance below the town. Waskaseau is the Indian name for Red Deer, and illustrates the characteristic euphony of Indian orthography. Few towns or cities in Alberta or in the whole of Western Canada possess within the area of the town so many beautiful and secluded resorts for private residences or desirable sites for schools, churches and other public buildings. On the north bank of the river towards the northeast is a most desirable quarter for factory sites.

TOWN'S PROSPERITY REFLECTED.
The unexampled prosperity of the last few years has been abundantly reflected in the development and expansion of the town of Red Deer. There has been a satisfactory and steady growth in population and in the value of assessable property. Imposing and commodious business blocks have been added to the main thoroughfares, handsome new residences, schools, churches and a number of plants have been built within the last year or two. Notwithstanding the comparative dullness of the building trade and the financial embarrassment of the season of 1907 building has been active and the town has succeeded in selling its debentures to raise the funds for the extension of civic improvements. Among the new buildings of which the citizens are justly proud is the new public school, built at a cost of \$35,000. Genuine devotion to the cause of education is a marked tendency in the public spirit of the citizens of Alberta in which virtue the people of Red Deer are determined to be in the van.

The building is a handsome structure of red brick on a massive foundation of cut stone. There are ten class rooms, private rooms for teachers, a library and a spacious assembly room. The lighting and the heating system are according to the latest improved inventions in these essentials. The building formerly used as a public school is a respectable brick structure with which it is the intention of the school board to remodel and improve for high school work next year.

NEW METHODIST CHURCH.
A new Methodist church to cost \$35,000 is under construction. The foundations are completed. The provincial government have recently purchased an admirable site for the new church house and the work will commence next spring and the building be completed with all expedition.

Red Deer is rapidly becoming a town of beautiful homes. This season has witnessed the addition of a large number of residences that give a distinctly more stable air to the growing town. Among the residences added this year, the largest and costliest is that of T. F. Ellis, proprietor of the Arlington hotel. He is building a red brick house on the corner of Douglas and Poplar avenues on the banks of the Waskaseau that will cost \$12,000 before it is completed. Other handsome residences have been erected by Julius McIntosh, Aln. W. J. Botterill, L. C. Palmer, Wm. Postill, Aln. Taitman, and the late Joseph M. Smith. Generally the observer is impressed with the taste and care which the citizens have exhibited in the improvement of their homes. Without exception every dwelling is handsomely painted, surrounded by trees and well kept gardens.

The expansion in the commercial activity of the town is marked by a number of new business blocks. The Imperial bank have erected a handsome brick and stone building on Gaetz avenue. The Smith & Gaetz block on Gaetz Ave., North has added two new stores and office to that quarter. The Murphy block and the new five hall on Rose Ave. indicates the growth of the town east and west. The Red Deer Advocate has found a new home in a handsome cement block which is the first building of the kind to be erected in the town. It is built of cement blocks manufactured in the town.

Next year it is probable that a \$35,000 Roman Catholic convent will be among the new institutions of the town. The land has been purchased and set apart for this purpose.

C.P.R. IMPROVEMENTS.
The most important expansion of the town of this year is concerned with the improvements of the C.P.R. Red Deer is to be made a semi-terminal. The town has given the C. P. R. an additional twenty acres which gives the company an area of fifty acres for yards and terminals. A new four-story round house 100 feet by 70 feet has been erected this fall and is ready for use. A repair and machine shop with full equipment of lathes, drills and other appliances is now in process of construction. The building will be a cement veneer. Estimates are prepared for a new station house which will be erected next year. Already the company have laid four miles of track. The town has agreed to supply the company with water.

Both the C. P. R. and the provincial government will build new steel bridges over the Red Deer river; new piers are already built for the steel superstructure. The provincial government will erect a steel bridge at the north end of Gaetz avenue, which is estimated at \$25,000. The present tuffie bridge over the river will be removed to a point on the river six miles away.

THE TOWN'S INDUSTRIES.
The industries of the town consist mainly of the manufacture of lumber, brick, carpenter's supplies and cement blocks for building or veneers. Two brick plants in town have made about three and three-quarter million bricks this season. R. C. Brumpton, of the Red Deer Brick company, stated that this is a considerable increase over the output of last year and further that before the building season closed this fall the whole output would be consumed.

The largest industry in the town is the Great West Lumber Company with 100 men on the pay roll. The mill,

which has a capacity of 65,000 board feet per twenty hours, works night and day with two shifts of ten hours each, obtains the supply of logs from the timber lands up the river, down which they are floated in the spring to the mill. The cut this year amounted to 5,000,000 board feet. The company intend to take out a greater supply of logs next winter than was taken out last winter. The deep snow last winter, reduced the cut of logs. If the coming season should be a favorable one the lumber output of the Red Deer mill will be considerably increased above the five million mark.

Recently a saw and door factory has been established in the town by J. E. Bower. The factory employs from twelve to fifteen men and runs every day. All kinds of lumber are manufactured into dressed material for the local building trade as well as a growing outside trade. An extension was made to the building and equipment last summer that will increase its capacity about 25 per cent.

RED DEER CREAMERY.
The Red Deer creamery is one of the largest and best in operation in Alberta. It was erected in 1901 and has been a flourishing institution ever since. The country surrounding the town is well stocked with dairy cows and the farmers have learned the value of the dairy industry when operated along scientific and successful lines. The creamery has been operated in winter as well as in the summer season.

The milling industry is represented by a flour mill that has a capacity of 100 barrels a day. A storage elevator is operated in connection with the mill. In addition there is a second elevator that handles grain of all kinds. The town has all the modern conveniences of the cities and towns of the east in the way of water sewerage lights, telephones and fire protection. A complete sewerage has been installed during the past season and is now in operation ready for use. It is significant to note that Red Deer is one of the very few towns or cities in the whole of Western Canada that has been able to sell their debentures. Not only was the town able to sell, but what is still more surprising, the debentures sold one per cent above par. Financially Red Deer is second to none in Western Canada. The sewerage system cost \$35,000 and is in use in all the hotels, public buildings and great number of private residences of the town. Provision is being made by the town authorities to filter and disinfect the sewerage to render it perfectly harmless before it finds its way into the river.

WATER ABSOLUTELY PURE.
The water comes from the mountain fed river of the Red Deer, which affords a pure and inexhaustible supply. The intake is situated far up the river away from any danger of contamination. From the river it is let into filtration beds of gravel and cinders and conserved in large tanks from which it is pumped from the power house to all parts of town. One large tank contains the water for domestic use. A recent test made by Dr. Charlton, of Regina, the bacteriologist to the Saskatchewan government designated the water as perfectly wholesome and "absolutely pure."

The town is lighted by electricity. A private corporation the Western General Electric Company, installed a plant a few years ago which has been improved and equipped from time to time until at the present time the company has a completely modern equipment for the production of electricity for light, telephone and power purposes. A 550 h. p. Cross Compound engine and 280 kilowatt generator has been added to the equipment this year at a cost of \$25,000. The central energy telephone system is in operation for local use in the town. House telephones cost \$10 per year, and business telephones \$25 per year. The town also has connection with the bell long distance line between Calgary and Edmonton.

EFFICIENT FIRE PROTECTION.
A complete equipment, with an engine, reels and hose, has been secured for efficient fire protection. A new fire hall was erected last year. The volunteer fire brigade under Chief Horace Meeres, is among the best in the province, as shown in the best fire contest held in Calgary last 24th of May. The efficiency of the fire protection is evidenced by the favorable rate that has been granted by the insurance underwriters.

The possibilities of the Red Deer river as a source of power have never been exploited. The river has a strong rapid current, the power of which, with no great engineering difficulty could be harnessed and utilized. No town in the province has better physical advantages in this respect.

THE PUBLIC GRATITUDE AND PATRONAGE
of the citizens has resulted in the establishment of the Red Deer Memorial Hospital. This splendid institution was founded to commemorate the services and heroic deaths of three young men of Red Deer, who went to South Africa with the Strathcona Horse, Charles Cruickshanks, Angus Jenkins, and Archie McNeel. The Hospital is loyally supported by the citizens and is under the able management of Miss Kingston. This year \$3000 has been spent upon increased facilities and appliances for hospital accommodation.

Red Deer is the center of one of the large judicial districts recently organized by the provincial government and will soon have a new Court house erected. The site at a cost of \$5,000 has already been secured. It is also the centre for the Dominion Lands office and the registry office.

GROWTH OF TOWN.
The town was incorporated on June 29th 1901, with a population of 600. Since then it has steadily grown in population, and in the value of assessable property, as the following figures indicate:

Year	Assessment	Population	Mills
1901	\$ 175,000	600	14
1902	270,000	800	16
1903	320,000	1,000	18
1904	335,000	1,200	18
1905	512,000	1,500	18
1906	603,000	1,800	21
1907	\$1,370,000	2,500	20

The bonded indebtedness of the town is only \$90,000. \$35,000 of this was incurred this year for the extension of the water and sewerage systems.

The town has a tributary territory of 2,600 square miles. The country is well settled. Grain raising, cattle raising, dairying and the breeding of pure breeds in a line of live stock forms the mixed occupation of farmers in the district. Nowhere in the province except around Lacombe, are there so many herds of pure bred cattle and swine. Every one of the heavy beef breeds are represented, as well as the principal dairy breeds.

Red Deer has won a high place recently in the production of high grade beef steers. The first shipment

of cattle from Alberta to top the market at Chicago were shipped a few weeks ago by Messrs. Root & Geisinger, of Red Deer.

The natural grasses in this district must be seen to be appreciated. On the upland they grow to the height of from 12 to 24 inches and on the lowland, or about the sloughs, they often attain to the height of from four to seven feet. When cured they make wonderfully nutritious hay and a man with much experience as a farmer in Iowa recently expressed himself as being "unable to understand how my brother's cattle up here, fed on wild hay and water only, and not specially protected with shelter, are in better condition in the spring than mine are at home in Iowa, fed on Timothy and clover hay, with corn and well housed." Wild pea vine and vetch are generally found and in many places are of remarkable growth.

The district is rich in timber and coal and well supplied with fuel and water. There also in the west numerous pure streams tributary to the Red Deer, such as the Raven, the Clearwater and the Medicine. Many smaller creeks also exist. Several beautiful lakes, also, are distributed east and west among the largest of which may be mentioned Sylvan Lake, Burnt Lake and Pine Lake. These lakes are well stocked with fish.

In the west of the district a coal area with workable seams aggregating 25 feet in thickness of a high class coal has recently been discovered and reported upon by one of the Dominion Government geological surveys.

Another inexhaustible coal area exists twelve miles east of this town. where excellent coal is mined in open cuts, being used by the settlers, who obtain it at the mine for \$1.50 per ton and who also haul it into town during winter for sale. Further east numerous outcrops of coal occur, in fact, this district is believed to be one vast coal field.

Excellent building stone is found outcropping along the banks of the river. The superficial layers are softer than the underlying strata. It is a sand stone of fine quality easily worked, and hardens with age and exposure. This stone is being used extensively for the foundations and facings of several new buildings in the town. It was used in the Imperial Bank building, public school, and All. Tallman's new house.

A charter was granted to the Alberta Central Railway, the route of which lies east of the town, to tap the coal fields and was granted to develop the timber wealth of the district. The citizens and young men of the town are enthusiastically devoted to a wholesome amateur sport. A fine new race track has been constructed, which has been recognized by the houses of Alberta and the Western States as being one of the fastest and best made tracks in the entire west.

Last summer a four team amateur baseball League was formed and played a series of games that lasted throughout the whole summer. The four clubs were known by the names, Waskaseau, Wigwags, Mechanics, and Outlaw. Two fine rinks were established for skating and curling. The town has a summer resort of unequalled beauty 12 miles west, at Sylvan Lake, where many of the citizens have established summer homes.

ENTITLED TO PARTICULARS

One ounce Fluid Extract Dandelion.
Four ounces Compound Sarsaparilla.
Mix, and take a teaspoonful after meals and at bedtime, drinking plenty of water.

The above prescription has been found invaluable in the treatment of kidney, bladder and urinary troubles, and diseases arising therefrom, such as rheumatism, edema, lame back and lumbago, and we feel that the public are entitled to particulars concerning it.

A prominent physician states that the excellent results that have been obtained from the use of the mixture are due to its direct action upon the kidneys, assisting them in their work and filtering all poisonous waste matter and acids from the blood and expelling same in the urine, and at the same time restoring the kidneys to healthy condition.

He further states that anyone suffering from ailments of this nature will find it to be very beneficial, and suggests that it be given a trial.

THREE WINNERS

The Winnipeg Weekly Telegram,
The Family Herald and
Weekly Star,
The Red Deer News,

All For
\$2.00

A Combination that Thoroughly
Covers the Wants of Every
Reader.

In offering these three prominent weeklies for two dollars, our readers have an opportunity to secure the greatest value ever known in the newspaper world. No one paper meets the needs of all classes as does this specially arranged combination. In the Winnipeg Telegram you have a family journal that weekly records the events of interest throughout the entire west. It has no connection with any colored comic section published by any weekly newspaper in Canada, a feature that amuses and entertains everybody.

The Family Herald and Weekly Star is a world's newspaper, magazine and agricultural journal combined with numerous special departments. The News provides all the local news of this district which is of interest to all.

EDITOR OF THE NEWS:

Sir,—This enclosed \$2.00 for which send me the Winnipeg Weekly Telegram, The Family Herald and Weekly Star and The News for one year.

A DESCENDANT OF ANANIAS.

The Calgary Herald very cleverly turns the table on The Alberta of that city and gives it a little plain talk with regard to its garbling privacies in the following manner:

The Alberta m' taken in the Herald's reference to W. F. Cookshutt, M. P. Mr. Cookshutt has never denied his tariff views and the Herald has no brief to deny them for him. The Herald merely drew attention to the fact that Mr. Cookshutt, while in the West with Mr. Jordan, had been criticized by Liberal papers as a manufacturer of plows when in fact, he was not so. The Liberal papers, including The Alberta, referred to Mr. Cookshutt as a manufacturer and a prominent member of the Manufacturers' association, whereas, in fact, Mr. Cookshutt is a member of the Manufacturers' association, which bears the same name as himself. The Liberal papers were unfair in so doing, though it is quite possible The Alberta doesn't see

The Alberta was also one of those who attached editorial significance to Mr. Robin's absence from Mr. Borden's Calgary meeting. "Where's Mr. Robin?" it wanted to know, and stated that he was heading a revolt of Manitoba Conservatives. There was no justification for the statement, which has since been disproved by Mr. Robin's appearance at Mr. Borden's Winnipeg meeting. The Alberta probably does not see the unfairness of its assertions in that connection, nor find it necessary to correct them.

As far as The Alberta is characteristically untruthful in its editorial statements and unfair in its editorial deductions. If facts do not suit the opinions it wishes to express, it changes the facts. It is untrammelled by considerations of journalistic honesty and, both in its references to other papers and to public affairs, displays constantly a facility for falsehood and an aptitude for perversion which would have won the admiration of the Ananias family.

WHAT THE WEST WANTS.

Hon. R. L. Borden tells east about desires of western half.

Ottawa Nov. 4.—R. L. Borden, after his return to Ottawa from his tour of the west, here following to say regarding the political tour from Halifax to Vancouver. "I left Ottawa Aug. 12, and the first meeting was held at Halifax, Aug. 20, and the last meeting was held at Port Arthur, October 31. The tour occupied 11 weeks and the total number of people addressed was about 30,000. The reception received in every province was most cordial and we found the people not only ready but eager to listen to a serious discussion on public affairs.

"The Halifax platform was received with a great deal of interest in nearly every locality. Civil service reform, better postal facilities, control of public utilities, the establishment of a national system of telephones and telegraphs, improved facilities in transportation and cold storage, and clean elections attracted the greatest attention.

"It was especially gratifying to know that in Western Canada civil service reform was of great interest to the people. Next to the questions of purely provincial interest this subject was received with more marked approval in British Columbia, Alberta, Saskatchewan and Manitoba than almost any other subject of our policy.

"With respect to Asiatic immigration conditions in British Columbia made the question one of the greatest importance to the people of Canada generally. My views of the subject were clearly set forth in speeches in Vancouver and Winnipeg. It is a subject which no doubt will be discussed during the coming session. We found a confident and aggressive spirit in the Conservative party throughout the various provinces and especially in the west. The work of organization has commenced in the provinces and candidates have been selected in several constituencies."

FORM BORDEN CLUB.

Ottawa, Nov. 5.—As a direct result of the formation of the Borden club in Winnipeg, which the Conservative leader referred to here on his return, a Borden club will be organized in Ottawa tonight. More voice in the doings of the party by the younger adherents to the Borden platform are the views put forward by the promoters.

PATENTS PROMPTLY SECURED

We solicit the business of inventors, engineers and others who realize the advisability of having their Patent Inventions protected by Experts. Preliminary advice free. Charges moderate. Our latest Address: 1000 Broadway, New York City, U.S.A. (Opposite the Hotel New York, New York City, U.S.A.)

Warm and Dry to Stay Well.

Now is the time when the doctor gets busy, and the patient medicine man, unless great care is taken to dress warmly and keep the feet dry. This is the advice of an old eminent authority, who says that Rheumatism and Kidney trouble weather is here, and also tells what to do in case of an attack.

Get from any good prescription pharmacy one-half ounce Fluid Extract Dandelion, one ounce Compound Karpion, three ounces Compound Syrup Sarsaparilla. Mix by shaking in a bottle and take a teaspoonful after meals and at bedtime.

Just try this simple home made mixture of Fluid Extract of Dandelion, or if your back aches or you feel that the kidneys are not acting just right. This is said to be a splendid kidney regulator, and almost a sure remedy for all forms of Rheumatism, which is caused by uric acid in the blood, which the kidneys fail to filter out. Any one can easily prepare this at home and at small cost.

Druggists in this town and vicinity, when shown the prescription, stated that they can either supply these ingredients, or, if our readers prefer, they will compound the mixture for them.

TRAIN THE FARMER FOR POLITICS.

"Old Hayseed" writes to the Family Herald, Montreal, as follows and there is more truth than poetry in the statements, as they are facts as to the farmer in Ontario:

Sir,—I have read your editorial on "Farmers and Politics," and I would like to inject a word. It certainly would be a great blessing if farmers would take more interest in politics, but we have three kinds of politics, federal, provincial, municipal. Now I have been keeping my eyes open lately, and I find that farmers are paying no attention to municipal politics. In many places municipal affairs are managed entirely by people in town. So that if farmers can't take hold and manage municipal affairs properly, what could they do sending farmers to Ottawa or to the local Legislatures?

Again, many agricultural societies are not run by farmers but are largely in the hands of town. Here is where farmers should jump in and get an insight and prepare for large operations. The patrons of industry were strong in 1894 and elected several M. P.'s to the Ontario Legislature, but they knew not to do so nor how to do it, and the result was they were almost forgotten as a dream. It is no use to put farmers into office if they do not know what is wanted, what is wrong, what needs making right, and how it is to be made right.

Farmers complain just about the burden of federal taxation being put on them, but did they ever stop to see how crooked their municipal taxation is? How many farmers understand what taxation means and its effects? How many farmers have ever pointed out the crookedness of our municipal taxation and demanded from the Legislature that it be made straight? Now Mr. Editor, when farmers can answer the above questions satisfactorily, then they are fit to enter politics, but until then they must remain "howlers of wood and drawers of water" for the other fellows.

"OLD HAYSEED."

TRIAL OF LUMBER DEALERS SET FOR NOV. 18.

Edmonton, Nov. 6.—At the supreme court yesterday, four criminal cases, Joseph Lavey, charge of theft; William Douglas, charge of theft; Edwin Clark, charge of theft; and John Charles Mellivath, charge of criminal assault were withdrawn.

The trial of the action against the Alberta Lumber Dealer's association for alleged combination in restraint of trade, was set down by Mr. Justice Sifton for Monday, Nov. 18. It is probable that the prosecution against the C. P. R. under the Lord's Day act, will be tried about the same time.

The charge of an unnatural offence against John Morton, a former resident proprietor, was heard and the jury returned a verdict of guilty. Judgment has been reserved.

Red Deer Iron Works, Morrison Street.

J. W. BROUGHTON,
Engineer, Millwright, Machinist

ENGINE FITTING AND MACHINE SHOP.

Shaft turning, Wheeling and Pipes screw cut, to any size and number of threads by machinery.
Repairs to all kinds of machinery promptly executed. The works are fitted throughout by most modern new machinery driven by 5 h.p. engine.

A MEDICAL HINT.

Glycerin a Valuable but Very Much Neglected Agent.

The Medical World thus calls attention to a very common but not fully appreciated remedy: It is strange that the many valuable virtues of glycerin are so little known or appreciated by the profession. Despite its cheapness and efficiency it has been almost entirely relegated to the realm of domestic medicine. The ideal practitioner, in whose hands it would be of daily use in a variety of ways, seldom uses it.

It does not evaporate, nor does it become rancid or undergo fermentation. Added to a mixture of fluid extracts, it prevents precipitation. Glycerin has curative solvent powers. Iodine, potassium, iodine, bromine, iodide of sulphur, chlorides of sodium and potassium, the alkalies, some of the alkaline earths, many of the neutral salts, the vegetable acids, morphine, quinine, strychnine, veratrine, atropine and curative acid are all freely soluble in glycerin. It has decided antiseptic properties. In the dose of a dram at bedtime it promptly relieves acidity of the stomach, pyrosis and flatulence. Mixed in equal proportions with cod liver oil and flavored with tincture of cinnamon, it makes a very acceptable vehicle of administration. Applied to the nares with a brush, it relieves coryza. Given internally, it is of service in acute catarrhs of the tongue and relieves laryngeal cough in children and adults. In low typhoidal conditions, when the tongue and lips have been covered with white matter, it is a valuable aid in the treatment. It is a valuable aid in the treatment of laryngeal cough in children and adults. In low typhoidal conditions, when the tongue and lips have been covered with white matter, it is a valuable aid in the treatment.

These are but a few hints from which the practitioner will readily evolve many more uses for this agent. Many more costly drugs could be dispensed if the doctor knew how to use glycerin.

AN ECONOMICAL HINT.

A Use For Tops of Old Long Gloves.

How It Is Done.
Here is a capital way to use up the tops of long kid gloves. Every one knows that the fingers are in holes long before the tops show any signs of wear. Cut off the tops at the wrist and turn them down the seam. You will find the tops of the gloves large as the pieces of leather obtained.

Lay the pieces face to face one on the other and cut out the biggest oval of material allowed. The long sides of the oval are for the sides of the bag and the short ends for the top and bottom.

Line with a piece of silk or satin in appropriate coloring, securing the lining in the usual fashion. The joining of the leather is quite a feature of the bag. Place the kid edge to edge and work "over and over" in stout white thread on the outside all the way round, keeping the stitches large and very even.

The cord to draw up the neck is put in in the usual way, a slot being made

MADE OF OLD KID GLOVE TOPS.

between the bag and the lining by a double line of running and a cord inserted.

The bag illustrated is in navy blue, lined with heliotrope satin, but one can imagine some very effective ones in other colors, say in tan lined with cinnamon brown or chocolate silk or a pretty evening bag in pale colors, perhaps a pink shade with a deep cream lining and gold cord.

An answer to which the tops of gloves can be put in the making of station holders. A couple of layers of the kid, backed on either side by one material and covered with a washing cover, makes a most dainty holder, through which the heat does not pass.

The Eternal Feminine.

"The ship will float but a few moments longer. Trust yourself to me."

"Is my hat on straight?"

"Yes! Yes! But come!"

"Tell me first how my life preserver sets on my back!"

WOODLANDS

SURVEY NOW COMPLETED.

IN 5 ACRE LOTS. Close to Town.

Large Lots, giving plenty of land to keep cow, poultry, and for large garden.

(Joining the well-known and progressive 5 acre sub-division of Fairview Park where Rev. Father Volain has purchased fifteen acres for convent, school and hospital.)

A splendid piece of property, a few minutes walk from town. Park-like land, groves of trees, stretches of rich, green meadow.

Desirable Place For Suburban Residences.

Rich fertile soil, black loam, ideal location for market gardeners and poultry fanciers. All who purchased in Fairview have done well. This, in many ways is a much better opportunity, and will enhance in value more quickly.

GET IN ON THE GROUND FLOOR.

Prices from \$75.00 per acre. Terms: One-third down; one-third in 12 and 24 months.

Inspection invited. We will have much pleasure in showing anyone over this property.

LIMITED.

STORM SASH.

Now is the time to order these storm sashes you have been thinking about. Phone up 81, and we will call and measure your windows and get your sash without trouble.

K. M. BYERS
MANAGER RED DEER YARD

Local and General

Geo. Davidson, of Olds, is in the hospital with a broken leg.

The Presbytery of Red Deer met yesterday at Burnt Lake for the ordination of John Nilsson.

Miss Christie, who has been visiting her sister, Mrs. M. A. Munro, left for Seattle a few days ago.

Don't forget the great retiring sale at Oumette & Wright's, now in full swing, store is crowded every day.

Mrs. North, Henry, South Dakota, is visiting her son, M. E. North. She will stay in Red Deer all winter.

The meeting to receive reports, and talk over the question of a reading room has been postponed to Friday evening, Nov. 22.

Messrs. Gibbs and Pearson of the Brackman Ker Milling Co. were in town on Thursday inspecting the improvements at the elevator.

Rev. W. F. Allan, of Innisfail, conducted service in the Presbyterian church Sunday last. Rev. M. Fortune conducted anniversary services at Innisfail.

The time to buy ladies' and children's coats and skirts is now, and the place to buy them at money saving prices is at Oumette & Wright's retiring sale.

Harold Foulds found a boy's watch near the post office, yesterday. The owner can have it by calling at the News office. No reward is asked for as Harold is a boy himself.

Mrs. J. F. Gaetz lost a fur ruff Monday last, between her residence Park street, and Mrs. Hemsworth's, on Stewart street. The finder will be rewarded by leaving at the News office or with Mrs. Gaetz.

The Jubilee Singers will give one of their famous entertainments in the assembly hall of the new school house, Thursday evening, Nov. 28th. The troupe was engaged by principal McLean and the proceeds go towards a piano for the school.

CLOTHING—Did you ever hear of 20th century clothing being sold at a sacrifice? The only time that happens is when the firm who handles it is retiring from business. Call on Oumette & Wright and buy 20th century clothing at the price of ordinary makes.

Uncle Tom's Cat in at the Lyric Theatre Saturday last, drew a fairly large crowd, both at the matinee when a number of country people were in attendance, and evening performance. The show was a good one and the special features between acts were well taken, and was one of the pleasing features of the entertainment.

Three lads named Kingsp, residing near Sylvan Lake, were up before Justice Wallace Thursday, charged with stealing a gun and other things from Alex Kaek. Constable Johnston, of the mounted police, found the gun hid in the partition of the house of Mrs. Kingsp. The boys, who were 11, 13, and 15 years old, were remanded one month for sentence.

The Innisfail Province issued a splendid illustrated edition of the paper on the 7th inst. It is one of the most creditable pieces of work ever turned out in a town of the west and we congratulate Editor E. J. Fream on his enterprise. The illustrations are first class and the statistics of the town are of great value and will, no doubt, be preserved by many of the readers of the Province for future reference. Bowden is also included in the write up.

W. A. McKinnay, opposite the News office, will do grinding and chipping.

All the wards in Memorial Hospital are full but two at the present time.

The crush of eager buyers to be seen at Oumette & Wright's retiring sale is indisputable evidence of the bargains that are being offered.

It was exactly eight minutes from the time the alarm went in till the first stream of water was on, with spring harness installed. Chief Meeres hopes to bring this time down to two minutes.

The black and white minstrels will give a performance in the new Lyric Theatre Thursday Nov. 22 in aid of Red Deer Memorial Hospital. Change of program. Popular Prices. Come and have a good time.

As the man who found A. Gehrkie's three boots on the trail will not bring them back, Mr. Gehrkie wants to give him the other boot as it is no good to him. Friend Gehrkie believes in the literal teaching of the good book.

The work of Policeman Rothnie on Sunday night in keeping the people from breaking open the front of Jarvis's store to get at the fire is to be highly commended. Only for his action in this respect, Chief Meeres says we would have had one of the worst fires in the history of Red Deer.

H. Raikes was in town yesterday. He is gradually recovering from the scare he got the other day when he saw that he was out as a candidate for political honors. We wouldn't be surprised if the story set him thinking, and after taking note of all the bouquets he has been receiving, make up his mind to come out in earnest.

The following are the officers of the W. C. T. U. Red Deer: President, Mrs. G. Bell, Vice Presidents: Mrs. J. McKillan, Mrs. G. W. Smith, Mrs. (Rev.) Goodfield; Corresponding Secy, Mrs. J. Youmans, Recording Secy, Mrs. J. McVicar, Treasurer Mrs. Dempsey, Soliciting Com. Mrs. McMillan and Mrs. Garton.

CHORAL SOCIETY CONCERT
The Red Deer Choral Society will hold their first concert on Thursday evening, Dec. 5, in the New Lyric Theatre. The programme will consist of songs, mixed and male quartettes, duets and solos. The chorus comprises some thirty voices.

Poplar Ridge.
Mr. and Mrs. John Wood of Red Deer were the guests of Mr. and Mrs. Strong Sunday.

Mr. and Mrs. Barton and family of England are visiting at the home of Mr. and Mrs. Lewin.

Mr. and Mrs. Mitchell of Red Deer were the guests of Mrs. Atkins Sunday.

Did we go to church Sunday? Well I guess yes, and it certainly was worth while going. Rev. Goodfield took charge of the Bible class in the absence of the teacher Miss Tingley.

Miss Agnes Fisher of Red Deer was visiting her father and mother last week.

Council Meeting.
The Council held a special general meeting Thursday evening last. Members all present, with his worship the Mayor in the chair.

F. S. Simpson notified the council of cancellation of insurance of the mill property by Home Insurance Co. with refund of premium.

W. G. Bell asked for return of poll tax as he was a ratepayer for school rates.

Mr. Bell's application was referred to town solicitor and it found correct secretary was instructed to refund.

Toronto, Calgary and Regina clerks wrote regarding tickets used at weigh scales by those municipalities.

Councillor Gaetz brought up the report of the sewerage committee. The committee reported having met and considered the draft agreement between the Town and W. A. and Mrs. A. A. Moore in respect to the construction of a sewer through the property of the latter and certain other matters pertaining thereto. The draft agreement was read and several clauses recommended for amendment.

At a subsequent meeting of the committee on Nov. 5 the committee instructed the councillors to lay the draft agreement in regard to the proposed change of the sewers outlet before the Messrs. Moore for their approval and afterwards report to the council.

The report of the committee was adopted.

Councillor Botterill brought up the commissioner's by-law and it was further discussed in committee of the whole, and passed its second reading.

Councillor Botterill moved seconded by Councillor Tallman that

the see'y-treas. be instructed to have the commissioner's by-law re-written as amended and brought in at the next meeting of the council for its third reading. Carried.

Moved by Councillor Gaetz and seconded by Councillor Tallman, together with the solicitor be instructed to prepare amendments to the Red Deer bill in respect to the appointment and discharge of commissioners and present same to the council at a future date. Carried.

The milk by-law was brought up by Councillor Tallman and certain amendments agreed upon. Councillors Tallman and Stephenson moved that the amendments of the milk by law be incorporated in the by law and that it be given its third reading at the next meeting of the Council. Carried.

Councillor McKee brought up a by-law with regard to boulevards and regulating the construction and government of same.

The by-law passed its several readings.

Some discussion of the mill property took place. If the Stratford Milling Co. people had a prior claim the town could not do better than accept their claim.

Councillor Botterill brought up the question of heating the Fire Hall. The weather was turning cold and we must make some arrangements to keep the building warm.

The Mayor thought the only thing we could do would be to put in stoves for the winter owing to the stringency of the money market.

The question of heating the Fire Hall by stoves was left to the commissioners on motion of Councillor Stephenson.

The Mayor drew the attention of the council to the fact that the council would meet as a court of revision on Monday afternoon.

Council adjourned.

Births.
At Penhold, the 10th inst. to Mr. and Mrs. Wm. Douglas, a daughter.

At Red Deer, on Nov. 6th to Mr. and Mrs. Asmundson, a son.

At Red Deer on Nov. 1st, to Mrs. J. M. Stevenson, a son.

THE POWER OF FIT

Nothing equals it. The best material will not atone for a bad fit, but a good fit will often redeem bad material.

Fit which shapes the foot in graceful lines, like a corset that perfectly moulds the figure, is always in demand, and will be as long as men look at women.

We pay special attention to good fitting lasts when buying our shoes, and guarantee you a comfortable, as well as a stylish, up-to-date shoe.

Bear in mind that quality always goes with fit when you buy your shoes here.

CUTTERS CUTTERS

You will soon have to decide what make of a cutter you will buy—let us help you decide. We still carry the old reliable Armstrong make. It has stood the test since 1874, and when a cutter is before the public for thirty-three (33) years there is a reason, and it will pay you to investigate. We have tried others, and have had the offer of several other agencies, but quality is our watchword and the "Armstrong" has stood the test; we have them all colors and sizes; every cutter has the removable back and sides, so you can strip your cutter in the spring and pack away the cushions the same as your winter clothes. We have just received a full car load, and it will pay you to see them before buying; they cost no more than inferior cutters because we buy wholesale and give you the advantage of the car load rate. Your inspection is solicited; for we know once you get our prices and see the cutters you will have no others.

Latimer & Botterill.
HEADQUARTERS FOR REPAIRS.

RESOLVED!
YOU NEVER SEE ANYONE AT THE TOP WHO ISN'T WELL DRESSED. YOU MUST HAVE GOOD APPAREL TO REACH THE TOP OR STAY THERE. ARE YOU ON THE WAY UP?
BUSTER BROWN!

WHY DOES THE FRUIT MAN PACK THE CHOICE APPLES AT THE TOP OF THE BARREL? BECAUSE THE APPLES AT THE TOP ARE THE FIRST ONES PEOPLE SEE. APPEARANCE COUNTS. IF APPEARANCE HELPS THE FRUIT MAN, WHY WILL NOT APPEARANCE HELP YOU? WE CAN HELP YOUR APPEARANCE, AND WITH THESE THINGS.

A NEW OVERCOAT AT \$13.50 TO \$16.50
A NEW SUIT AT 10.00, 12.00, 15.00
A PAIR OF OUR BOOTS AT 3.50 TO 4.50

RESPECTFULLY,
HILL & HORN,
General Merchants. Phone 48.
